Illegal crossing of undocumented children are not being "DNA" tested or those adults to see if "families" are coming across. There are hundreds of thousands of LOST CHILDREN... probably being sex trafficked (raped), and other horrific things. All the talk of "protecting families" when San Diego is NOT LOOKING FOR THE CHILDREN

Low Barrier tiny cabins should not be allowed near family homes, schools and several day cares. Tiny cabins in residential neighborhoods should be for families with children or individuals that have already been through a series of steps/requirements to ensure they are sober and ready to be a part of the community. Tiny Cabins should be a privilege for families or individuals that are ready to take the next step to permanent housing and not for individuals still in the recovering stages.

The Troy st sleeping cabins will not help our unhoused. Monica steppe Montgomery nor Allyson snow spoke with residents or business owners for input, they railroaded the citizens. This is for their political gain and not to help the unhoused. Bussing people in from outside LG to a low barrier shelter will only make our vulnerable area worse, this is not beneficial to families as we were previously told, and blatantly lied to by mrs. steppe and snow several times already. No on cabins in LG!

I have lived in lemon Grove for 63 yrs and am opposed to the tiny homes. This is not the right place for low barrier housing. Near an This is not the right place for low barrier housing. Near a school, in a residential area, and right across the street from a liquor store. There is nothing but a bus which is usually very unreliable. I am also oppose to how this all came to be. Snow does not speak for the citizens of lemon Grove. I live 1/2 mile from this project and was never informed.

Tiny cabins- the scheduled meeting in June, that hundreds of us citizens showed up pissed about, because of a fly by night RULING steppe & snow made. Which was coincidentally 2 days before the scheduled community meeting and 10 days before a scheduled COUNCIL VOTE on them. On that day they did not listen to the screams of the community who will be impacted. How was it scheduled for 2 years in spring valley, then rescinded, but only a few weeks in LG before we were sold out & forced in to this?

resend the Troy St project the pushback of Spring Valley and Lemon Grove, the location is across the street from a liquor store less 1500 feet from a brand new elementary school council member Snow took it upon herself to tell you that Lemon Grove residence wanted she ran her campaign on the lies that this was for families with children and seniors which are all lies we do not want we have a signed petition with over 450 signatures stating that

Allison Snow and Montgomery ought to feel ashamed of themselves; imposing a homeless shelter on our neighborhood without seeking input is intolerable. A dictatorship like this is enforcing its will on our community without even asking us about the type of people who belong here. While we do not oppose homeless shelters, we do object to their construction in inappropriate locations. Low barrier shelter means those who are housed there can be actively using drugs. With untreated mental illnesses!

Lemon Grove resident, business owner and a mother here. Putting a low barrier shelter in our community will ruin our neighborhood. Have some mercy on the families that and work live nearby. We deserve safety at the least. Homeless projects don't belong next to children and families. The money is no longer there Monica! Take your time to make an educated and not rushed decision on the location of this. Do not turn Lemon Grove into the skid row!

Monica Montgomery-Steppe, you disrespected the people of Lemon Grove when you steamrolled Troy St project onto our ground without proper surveys or public input. Where is democracy? Where is the space for LG folks to voice their concerns. Your Zoom session does not even allow public comments and most questions were unanswered. We demand transparency. We demand you and Mayor-elect Alysson Snow to let the public provide their input. Stop silencing us and stop punishing us for your political gains.

Monica Montgomery, shame on you. This is not an autocracy! You get to dictate what gets put in people's neighborhoods without seeking comment from the public ! Snow shame on you for speaking up and saying we wanted this in our community when in fact half of the city council wasn't aware that you were going to go there and make public comment in favor of of this!. If any kind of shelter should be built it should be for elderly set some parameter get communities input before you build anything!!

Allison Snow purposely went around the citizens of lemon groves back to accept a project for the purpose of personal gain & growth. The tiny sheds on Troy St are a money grab & dangerous to put that close to residential area, children's schools & over a dozen daycares. How does the council member with the least amount of experience, have a permanent say that will impact multiple communities for years? Steppe showed up to a scheduled meeting, the day after to say she wasnt there to rescind. WTF?

Limiting the peoples voices and comments is shameful and disrespectful of your own constituents. Worry about what's happening to our communities especially unincorporated areas becoming slums!

When is the board going to stop accepting the corrupt government bribes to destroy our schools? You're forced to push sexualization agenda and brainwash children into self identity confusion. Child abuse is implemented! How do you sleep at night? You will be held accountable.

When is this majority body going to stop with your "resistence politics" and damaging policies that harm our beautiful and unique county and the citizens and taxpayers? Who are you people working for? You should have been voted out of office.

The Co Bd of Supervisors needs to provide a tank and sale of unleaded fuel at Palomar Airport in Carlsbad. The pilots need to be informed about the toxicity of leaded fuel and safer alternatives. Single propellar planes using leaded fuel are causing neurocognitive impairments in our children, high blood pressure and cardiovascular conditions and cancer. The city of San diego made arrangements to purchase unleaded fuel tank and provide alternative to toxic leaded fuel.

I live quite close to Palomar airport and am opposed to item 10, American Airlines bringing jets into the small airport! The noise is already disturbing as it is. I also understand they would start at 6:15 in the morning which would wake many people. This change could easily destroy my neighbor hood.
