Subject: [External] (CLERB) ANNUAL REPORT (Please include with documents for agenda #19)
Date: Thursday, September 25, 2025 4:55:27 PM

Good Afternoon, Supervisors,

Not sure why the ANNUAL report covers the three years from 2022 to 24. The report mentions an In-custody Death Study as an initiative. But why stop at deaths. There are so many other incidents of excessive force and other malfeasance.

I am glad that CLERB wants to give the Community an opportunity to be heard. I hope the CLERB will listen and report on what the Community input is and whether it is valid.

Since the CLERB is so committed to providing "thorough, balanced, fact-driven investigations " I think that furthering the County's furthering the opportunities to participate in DEI activities DURING WORK HOURS is redundant and counterproductive, and should be discontinued as regards CLERB.

Short report, and I am disappointed that there is no summary of what the 176 closed cases and the over 100 referrals were so that the Community can judge whether they were proper.

Regards,

Paul Henkin
