This project should have been completed in 2015. But the developer had two time extensions, one for 2 years which somehow lasted 9, and another for 2 years.

This is a scheme to keep the land tied up, not helping the homeless or disadvantaged, and enrich the developer. There are lots of cons. The only pro is that the County gets a little interest for this. Call it a kickback reimbursement for all those cons.

There needs to be more than 10 percent of truly low-income housing (30% AMI per HUD,) not below 50% or up, where the developer can pick and choose whom to let in.

And you should build cheaper housing which is quicker to build - 3D printed, tiny homes, shipping crate homes, maybe adobe homes, as we keep telling you. These would not only be cheaper but also keep up with the market for new homes better instead of houses that might not be built for years and then it would be less likely to end up with an oversupply of homes.

NO to all the time extensions you grant.
