Governmental interference has raised costs of building to the point we are at crisis. More Government is the problem not the solution. Get out the way.

The San Diego Housing Federation supports the County Board of Supervisors' pursuit of local funding solutions to boost the production of affordable homes. The San Diego region remains in a devastating housing crisis. With the need for safe, high-quality affordable housing at the nexus of our most pressing challenges, our region cannot afford anything less than pursuing proven strategies to meet this challenge head on. SDHF stands ready to partner with the County to create sustainable solutions.

Another useless tactic. The housing crisis??? Stop all the fees, insane red tape to build, stop requiring builders the ENDLESS list of must haves! The homeless are going to be homeless for the majority. People actually working and paying taxes are suffering your nightmare.

There are many other ways to address housing affordability without yet another government entity/agency. NO to this agenda item (and wondering why the supporting Board Letter struck out all references to SB 1105.)

PATH strongly supports efforts to finance affordable housing swiftly and equitably. San Diego's lack of consistent, long-term funding for affordable housing prolongs our neighbors' time in shelters or sidewalks, and leaves thousands of renters vulnerable. We need a sustained regional response, fast. Similar proposals in CA demonstrate the impact of a coordinated, swift, inclusive process on this. Let's work together to bring a sustainable, ongoing regional funding source to address homelessness.

Another money funneling scam. Spoke with some contractors and they are being told to build (2) apartment units for low income and these turn into drug houses plus the rest of the units are for regular community people at high dollar while the contacted money is funneling back to contractors and the BOS!!
