Let's see the crime lists and statistics! No more weed shops in unincorporated areas shameful of whoever allowed this group to go through the county. We don't want them near our schools and homes! You all need to rescind these lame ideas

There should be statistics available and look at all the crime that ensues with this. Are there limits to the amounts of these pot shops? Why are grants available for these to incarcerated and how do you think these would be close to you? There have been several crimes committed in the areas new pot shops are being proposed and again no real rules or answers from this Board.

Cannabis businesses for the incarcerated! Unbelievable that's what the county is doing and not helping solve real problems in their areas! Yes there should be statistics of the crime and the unincorporated areas do not need anymore there are already 5 in the areas! Utilize the \$ for paint, lawnmowers, and garbage bags if they want the money clean up the area! How nonsensical is this?! There's been murders at these places and the lack of force! Hey let's pay 41k for personal security- facts

Can you add and question- Make limits of Cannabis locations as other Counties have done in the unincorporated areas. Please remember with the limit of our own Sheriffs Department and laws the Unincorporated areas have watched our areas deteriorate and have had murders! There is a new program to help previously incarcerated to have stores. How about helping the unincorporated areas too in the process- graffiti and trash task force, enact businesses to maintain by cleaning up their property!
