Hello, my name is Jack Dailey the Director of Health Policy at the Legal Aid Society of San Diego offering comments in support of item number 24. Legal Aid applauds the BoS efforts to develop and implement a coordinated response to the numerous state and federal policy changes that will impact low income and vulnerable San Diegans. Legal Aid also applauds the establishment of a task force to study organizational and strategic structural changes needed to continue to meet the needs of the community. We recommend that the newly formed task force support engaged and meaningful opportunities for BH consumers and beneficiaries of public benefit programs to contribute to this important process. Further, the task force should leverage San Diego's rich and diverse network of stakeholder organizations, as well as the expertise of existing Advisory Boards to the BoS and to the health and human services agency in a coordinated fashion. I urge the board to vote yes on this item. Thank you

Serena Pelka

Dear Chair Lawson-Remer, Vice Chair Montgomery Steppe and Members of the Board,

My name is Serena Pelka from Climate Action Campaign, expressing our strong support for the Ad Hoc Subcommittee on Social Safety Net and Behavioral Health Systems Transformation.

This Subcommittee offers a proactive, community-centered approach to

- * Safeguard essential services;
- * Explore equitable, sustainable local financing solutions;
- * Protect vulnerable residents from preventable harm; and
- * Maintain the County's strong financial standing and long-term investments.

As we continue to work for an affordable, pollution free future that improves quality of life for San Diego families, essential services are a critical part of that. Paired with a portion of the county reserves being unlocked, this subcommittee is needed. Please support the item. Thank you.

For over 25 years Legal Aid Society of San Diego has served as a partner to the County of San Diego to support San Diegans access justice and overcome barriers to needed services and benefits. LASSD applauds the BoS efforts to develop and implement a coordinated response to the numerous state and federal policy changes that will impact low income and vulnerable San Diegans.

The task force must support engaged and meaningful opportunities for BH consumers and beneficiaries of public benefit programs to contribute to this important process. Consumer and beneficiary participation will ensure a person-centered approach and help support the development of effective outreach and engagement strategies.

Lastly, the Task force should leverage expertise of existing Advisory Boards to HHSA, including but not limited to, the Behavioral Health Advisory Board, Social Services Advisory Board, Healthy San Diego, Health Services Advisory Board, and other relevant advisory bodies.

I strongly support this! We need to ensure the patient/member/participant experience is at the forefront of navigating safety net services.

Again, stepping in to help fund the gaps in services to the most vulnerable members of our communities is the right thing to do. As stated previously, I am a disabled Senior citizen already feeling the cuts.

I am in support of this proposal with the same reasoning Feeding San Diego, The Center, Youth Will, Harvey Family Foundation have provided.

By unlocking a portion of the County's reserves it would help stabilize critical services that are risk to cuts in the near term. This will prevent funding gaps while ensuring the most vulnerable in our community continue to receive critical support and services. A dedicated subcommittee will protect future generations, give a seat at the table to nonprofits, the community & business leaders, demand transparency, shield core services with each of these not being effected by the political landscape.

Thank you for your time
