Refugees, illegal immigrants, undocumented [actually documented as illegal], other labels, are not entitled to this country, this county and more and more freebies. American citizens must be prioritized over noncitizens.

There should not be any more money spent on refugees when we have so many homeless people still on the streets that could benefit from this money.

Linda Clukey

We (US citizens) are all refugees or a descendent of refugees or immigrants (refugee by another name). We are the melting pot of the world. Everyone deserves to live their life free of oppression and in the pursuit of happiness and a better life. This concept is what our founding fathers intended for our government to embrace.

Paul Henkin

Location: 91902, Bonita

Submitted At: 9:32am 04-15-26

I support this request even though it is for refugees because of all the weird diseases that they seem to be bringing into this country, putting us all at risk, especially those who are willing to be guinea pigs for the CDC and whatever defective vaccine it rushes through. Might even improve our disease detection, so we don't find out about things like TB months down the road
