I oppose repealing our sanctuary policy. State and federal laws allow local governments to focus resources on serving their residents instead of voluntarily collaborating with ICE. Our current sanctuary policy affirms that we support our immigrant communities and will not use our resources to aid the federal government's mass deportation agenda. Repealing it would betray our values, roll back our hard-fought progress and harm our border county.

Sanctuary cities undermine the rule of law by shielding illegal immigrants from federal immigration enforcement, which disrespects the legal process conservatives hold dear. They strain taxpayer resources, diverting funds from law-abiding citizens to support those who broke the law to enter the country, a policy conservatives see as unjust. These cities also attract more illegal immigration, worsening border security—a key conservative priority—and potentially increasing crime rates in communities. Finally, abolishing sanctuary cities would reinforce national sovereignty, a principle conservatives champion, by ensuring uniform enforcement of immigration laws across all jurisdictions.

This is nonsensical. The proposal that law enforcement in SD County should divert their focus to rounding up undocumented people and assume responsibility for ICA leaves all of SD residents at greater risk. These are not the values which caused me to move to San Diego. I expect our sheriff's office to prioritize protecting San Diegans (including the ones incarcerated) and not wasting their resources, staff time and energy on implementing the White Nationalist's agenda. The suggestion that immigrants are the cause of crime is false but fans the xenophobia of other parts of the US, NOT San Diego.

Cartels are prominent throughout California today. Their unfettered access to our state was facilitated by failure to control our borders. Fentanyl, human trafficking, corruption, and intimidation of public officials and residents have continued unfettered. The cost is over 100k deaths of Americans yearly (not including the behavioral costs of increased mental health problems, addiction, and treatment. A country without defined borders is not a country. It is relevant that public electeds take an oath to support state AND FEDERAL law, not just the laws that are consistent with their ideology.

The County's dedication to forcing an expanded marijuana industry on the unincorporated communities supports marijuana industry interests at the cost of disenfranchising the voice of unincorporated residents who do not want marijuana commercial operations in their communities.

San Diego should remain a sanctuary city because San Diego has always been next to the border, meaning that there will always be immigrants no matter what. Getting rid of San Diego being a sanctuary will only increase the number of undocumented immigrants which for many of the people supporting this will find it irritating. From my experience, all the immigrants I know of have always been kind, helpful, and always working hard to provide not only for themselves but also for their families. Making San Diego a non sanctuary city will make many peoples life harder then it already is for them and it would also be dehumanization. Please keep the city of San Diego as a sanctuary city. Thank you

San Diego County is a binational border community, and everything from our economy to our families and neighborhoods are deeply interwoven with humans at every stage of their immigrant journey. They are valued and valuable, both as a group and as individuals, and they enrich our lives and communities in many positive ways. From moral, social, and economic vantage points, it is appropriate and correct for us to stand up to those who are trying to target and vilify immigrants, who are largely a boon to our nation.

I find it disgusting that Supervisor Desmond, who proposed this item, is conducting his campaign for congress from the county dais in this manner, and I look forward to voters telling him in no uncertain terms that this sort of rabid, half-baked, intrinsically racist xenophobia is NOT what we look for in our elected leaders.

I strongly oppose repealing board policy L-2, and urge the board to vote to support and protect San Diego values and community members.

San Diego has always been a city and county built on immigrant love and labor. This is unsafe for our communities that have been terrorized by immigration authorities since Trump took office. ICE was created under everyone's favorite president, George W. Bush, and it tears families apart, spreads fear, and targets people who are just trying to live their lives and contribute to our communities. This kind of enforcement goes against everything this country is supposed to stand for—justice, opportunity, and dignity for all. We need to protect our immigrant neighbors, not criminalize them.

The country was and is still built with the hard working immigrant population. If this is repealed, (after passing recently), would jeopardize those vulnerable hard working families we should be protecting. I agree that dangerous criminals should be deported immediately but there needs to be something set in place to distinguish the difference between dangerous criminals and those who pose no threat to our safety. The use of county resources to do a job that is the responsibility of the federal government is unacceptable. This creates fear, danger, and mistrust in our police departments, but it also robs those who need our law enforcement to do their jobs. This is an attempt to vote for hate over dignity. This being put back on the agenda seems strategic. I urge everyone to carefully consider their choice, conscience, and be mindful of unintended consequences. Thank you.

I'm a resident of District Five; shame on my supervisor, Desmon The Sheriff could try to claim that they will lose federal funding due to the County's policy. The Trump administration tried to withhold federal funding to sanctuary jurisdictions during their first term, and lost in court when SB 54 was upheld. Additionally, the County rescinding its policy would not make a difference were the federal government to try to withhold funding to "sanctuary jurisdictions", because the entire state of CA falls under the Trump administration's definition of a sanctuary jurisdiction due to the restrictions under the TRUST Act, the TRUTH Act and SB 54.

My name is AJ Joven and I am a representative with the California Immigrant Policy Center, a statewide immigrants organization. I am writing to register our opposition to this measure. We believe that ensuring San Diego County is welcoming and supportive of the community is the path to providing a safe, inclusive, and more prosperous County. That means ensuring that all community members feel welcome to participate in all facets of civic life within the County. Repealing L-2 will only reinforce harmful and biased stereotypes about the immigrant community, and discourage immigrants - who already contribute to making the County a wonderful place to live and work - from being more deeply knitted into the community. We strongly urge the Board to reject this senseless attack on the community and get back to doing what they do best: building a thriving San Diego for all of its residents.

I urge you to oppose Item 9. Real public safety demands that the public be able to trust local law enforcement. Vulnerable people are not going to call for help if they fear that call will put them or their families at risk of deportation. And when vulnerable people are afraid to call for help, REAL bad actors can act with impunity. Unfortunately at this moment, federal authorities are abusing their trust. Just in the last day we've seen ICE detain a LEGAL resident, confiscate his green card, remove him to a facility 1000s of miles from his home and family, and threaten him with deportation. All without charging him with a crime—his offense is simply expressing views the administration finds objectionable.

The very LEAST we ask is that if federal authorities want to arrest someone in local custody, they provide a warrant. Do not rush to comply with those eager to abuse their power and overstep the rule of law. Please prioritize real public safety and community trust. Oppose Item 9.

Please retain Policy L-2. Please do not rescind it. Please do not waste County resources by supplementing Federal mass deportation. The County already has the power to arrest convicted people. The federal deportation efforts is flawed with arresting innocent people, even American citizens. This country was built on immigrants' hard work, dreams, and resilience. They've shaped our communities, our economy, and our shared values. Turning our backs on them now would mean forgetting what makes us strong. We can't let fear or oppression dictate how we treat others. I oppose repealing our sanctuary policy. As state and federal laws allow, we demand our county supervisors to use our resources to protect our residents instead of using them to support a fascist federal government agenda by collaborating with ICE. I oppose resources to be used to send our immigrant residents to makeshift concentration camps, such as Guantanamo bay, the Panama jungle, or ages along the border. I opposed repealing Sanctuary County Status, San Diego deserve clear & trusting relationships with law enforcement. Kelly Martinez has made it clear her priorities are not reflective of the county of SD. Martinez has rejected accountability from the people's mandate of CLERB & continues to put her personal politics first. Sanctuary County Status is important for me as a resident of District 4 in San Diego, because community trust with law enforcement is already strained & this action would further deteriorate public relations. Trump's immigration agenda has people scared, anxious, and unsettled. We are worried that our elected officials are not doing enough to resist his racist agenda. I am strongly opposed to the proposed repeal of Board Policy L-2, which currently protects undocumented individuals in San Diego County by preventing local law enforcement from cooperating with ICE. This policy provides a critical safeguard for immigrant communities, ensuring they can live without constant fear of deportation.

By repealing this policy and ending the Super Sanctuary County Status, we are putting our neighbors at risk—especially those who have called this place home for years, contributing to our economy and society. ICE raids tear families apart and harm communities, and we must not allow our local government to enable such practices.

We need to protect undocumented individuals, not punish them. The repeal of this policy would send the wrong message—one of exclusion and fear instead of inclusion and compassion.

Opportunism and political expediency are deplorable ways of effectuating public policy. Supervisor Desmond is choosing to do this by proposing the elimination of Board Policy L2, when implementation of that policy has yet to take place and District 1 is not yet represented on the Board. Exploiting anti-immigrant fervor with the intention of disenfranchising those who could be directly affected is cruel. Alliance San Diego strongly opposes Item 9. Community trust in our local government and law enforcement is lost when local law enforcement engages in immigration enforcement and colludes with federal immigration agencies.

When individuals are afraid to call the Sheriff because they fear they or a loved one could be deported, this impacts the public safety of everyone. When the community believes the County is colluding with federal immigration, they won't access county services or programs either, including healthcare. This impacts public health as a whole, not just the individual or family who chooses not to access a vaccine or healthcare clinic. Community members are living in fear of deportation right now. The County taking a proactive stance to ensure that its resources are not used for immigration enforcement helps protect immigrants in our region and build community trust. We urge the board to oppose Item 9.

Research shows that communities with immigrant populations are safe, vibrant, and full communities. In fact, many studies have found that crime actually decreases in cities with large immigrant populations. Social scientists even have a term for it: the "immigrant revitalization perspective." Tom K. Wong, a professor at the University of

California, San Diego, conducted a study comparing the performance of sanctuary cities to non-sanctuary cities and found: - There are, on average, 35.5 fewer crimes committed per 10,000 people in sanctuary counties compared to non-sanctuary counties.

- Median household annual income is, on average, \$4,353 higher in sanctuary counties compared to nonsanctuary counties.

- The poverty rate is 2.3 percent lower, on average, in sanctuary counties compared to nonsanctuary counties.

- Unemployment is, on average, 1.1 percent lower in sanctuary counties compared to nonsanctuary counties.

Policies of welcoming and inclusion enhance everyone's safety.

I oppose ending the current sanctuary county status for multiple reasons including many of those I've seen in other oppose comments. I'd like to add that this plan is short sighted, we're trading community trust for the privilege to spend more tax dollars on privately owned detention centers? All so we can gain the approval a couple of cartoonishly incompetent businessmen? It's not lost on me that the rate of people flowing into the detention facilities far exceeds the rate of people flowing out.

Keep working on the economy!!! People are getting fired and businesses are losing income for employees. This is just the beginning - lets not get distracted with policies that affect our community negatively. We need to stand together and work on resolutions to keep our San Diego economy strong, grant workshops, community events, business strategy. All of this immigrant stuff is NOT as important as the issues we have at hand. STOP IT! This narrative only hurts the long standing undocumented people who have been working here for a long time.

I oppose repealing our sanctuary policy. It protects our immigrant communities and ensures local resources serve our residents—not fuel ICE's mass deportation agenda. Repealing it would be a betrayal of our values, a rollback of hard-won progress, and a direct harm to our border county.

I urge you to uphold San Diego's Sanctuary Policies. The push to detain and deport people - the overwhelming majority of whom are hard-working, compassionate members of our communities - is not only inhumane but illegal. They are going after families, caretakers, adults who were brought to the country when they were babies and call this home. This is nothing more than a smoke screen to distract people. Meanwhile, police resources will be diverted from actual criminal activity.

As a physician, I have already seen and felt the devastating impacts of these policies. People are scared to leave their homes to come to clinic, to take their children to school, to go to work. Children are terrified their parents will disappear. We have an obligation as a democratic county within a democratic state to protect ALL members of our community. We don't need to imagine what happens next: history has already written the ending for us time and time again.

"Our current sanctuary policy affirms that we support our immigrant communities and will no use our resources to aid the federal government's mass deportation agenda.

"Repealing it would betray our values, roll back our hard-fought progress and harm our border county." How is criminalizing families helping our economy? How is violating due process making Americans safe?

Immigrants are the backbone of our country. providing much needed labor. most immigrants are honorable, law-abiding, hard-working taxpayers. Many own businesses. They contribute billions to our economy and SS. Furthermore, many immigrants cross the border for asylum from countries suffering from drug cartels, wars, and oppression. I urge the Board of Supervisors to oppose the ending of our super sanctuary county status. Repealing this status will intensify the horrors of ICE in our community, ripping more families apart, traumatizing children of immigrants, and amplifying distrust in law enforcement. ICE is already bad enough by stalking and harassing my community members and taking millions of our tax dollars away from social security nets and essential programs for their \$100k+ annual salaries. My neighbors and community members who are here without documents are essential to the economy. Would you want to leave your job as a Supervisor and work in incredibly unsafe and unregulated fields picking our fruits and vegetables? Or constructing new and useless luxury apartments all over the city? Repealing San Diego County's sanctuary policy would hurt real people—our neighbors, families, and businesses. This policy isn't just symbolic; it directly impacts public safety, economic stability, and community trust. San Diego has benefited from programs that provide legal support and expand job opportunities, strengthening economic resilience. Some claim sanctuary policies increase crime, but research shows immigrants commit crimes at lower rates than native-born citizens. Policies that create fear reduce crime reporting, making communities vulnerable. In February 2025, mayors from Boston, Chicago, Denver, and New York testified that their sanctuary policies

improved public safety. Without trust, crimes go unreported, making communities less safe. San Diego thrives on inclusivity and opportunity. Repealing these protections ignores research and lived experience.

Repealing sanctuary status will only lead to more discrimination and racist profiling by federal and then state forces. Repealing this status will set a precedent for further future actions, by retaining this current policy the city of San Diego will show its support and solidarity for the immigrant communities. Additionally, it will be a step in the direction to protect further minority communities that will be victims of unjust federal targeting such as, the LGBTQ+ community, Native American community, African American community, Asian Community, etc. The city of San Diego is a border city, one of many complex and growing populations. I strongly oppose ending statutory status. Sanctuary cities & counties play an essential role in promoting public safety, economic stability, and the well-being of all community members. The evidence overwhelmingly supports sanctuary policies as beneficial to both local law enforcement and the broader community.

Sanctuary cities foster public safety. A study by the American Immigration Council found that cities with sanctuary policies experience lower crime rates, as immigrants report crimes without fear of deportation. Research by the Cato Institute shows that sanctuary cities are safer, with lower crime rates compared to non-sanctuary cities. This is due to the trust sanctuary policies foster between local police and immigrant communities, leading to better cooperation in fighting crime and keeping neighborhoods safe.

I urge the Board to consider the long-term consequences of ending sanctuary protections and to stand with the values that make San Diego a great place to live.

Community trust is imperative to public safety and public health. Residents must be able to safely call and use the systems that keep us all safe and healthy without fear that local authorities will work with immigration agents to have them detained and deported. Communities that have implemented policies that prohibit local law enforcement from performing as immigration enforcement agents are safer and have less crime than those that collude with ICE. As a San Diego County resident, I do not believe our county resources should be used for federal immigration purposes. I strongly oppose changing the status / policy of maintaining county-wide sanctuary status. There have already been several news reports of American citizens or those who have no criminal record and have valid visas being taken in by ICE. I am a voter in district 2. I strongly oppose repealing our sanctuary policy. It is inhumane to round up immigrants who are just trying to make a better life for themselves often having fled horrible circumstances in their home countries to give their families more opportunities. But sadly they come here and are met with no direct or achievable path to citizenship so are forced to continue to live and contribute to society while fearing for their lives and protection for their families. Imagine being on the other end of things and wanting to find a safer place to live but instead being criminalized and punished. It's not right.

The League of Women Voters of North County San Diego strongly supports a criminal justice system that is just, effective, equitable, transparent, and that fosters public trust at all stages. The League also supports due process for all persons, including the right to a fair hearing, right to counsel, right of appeal and right to humane treatment.

We oppose repealing our sanctuary policy. State and federal laws allow local governments to prioritize serving their residents instead of expending resources through collaborating with ICE. Our current sanctuary policy

affirms our commitment to supporting our immigrant communities and ensures our resources are not used to aid the federal government's mass deportation agenda. Repealing this policy would betray our values, roll back our hard-fought progress, and harm our border county.

We are a nation of immigrants. Our strength came from welcoming others. As an American, I cannot accept an action that flies in the face of the very thing that made this country strong.

We are called to care for our neighbors and to welcome the stranger. As a Christian, I cannot condone an action that flies in the face of God's command that "The foreigner residing among you must be treated as your native-born" and Paul's injunction to "show hospitality to strangers."

It is clear to me that there is little evidence behind this action. As a thinking person, I cannot support an action that is, itself, supported only by conjecture.

This is a deeply flawed idea. I suggest the Board drop it and move on.

The current administration has shown an utter disregard for details and the rule of law in how it has handled every aspect of executing on its crackdown on supposed criminals. People without any criminal record, people with green cards, and even citizens have been removed from their homes and sometimes detained for extended periods, even sent out of the country. If this can happen to them, it can happen to anyone it deems "undesirable." Local government has a chance to stand up and be the good guys when the administration has shown itself to be completely incompetent, corrupt, and vengeful. Do better.

Sanctuary Cities are safer.

Immigrants with irregular status contribute \$100 to the US economy for every \$1 received in assistance...Workers with irregular immigration status generate \$1.5 trillion to the US economy pevery year.

Some of the most extensive research comes from Stanford University. Economist Ran Abramitzky found that since the 1960s, immigrants are 60% less likely to be incarcerated than U.S.-born people.The Stanford study concludes that first-generation male immigrants traditionally do better than U.S.-born men who didn't finish high school, which is the group most likely to be incarcerated in the U.S.

Research also shows that there is no correlation between undocumented people and a rise in crime. Recent investigations by The New York Times and The Marshall Project found that between 2007 and 2016, there was no link between undocumented immigrants and a rise in violent or property crime in those communities.

This is a solution looking for a problem.

We have enough budget troubles without paying for our local deputies to enforce federal law. There are notifications available to ICE already when our local law enforcement apprehends or releases people, they (ICE) can just pay attention and show up when someone they want is in custody. We do NOT need to collaborate with the federal government, especially these days. I oppose repealing our county's sanctuary policy. The greater San Diego County area has long enjoyed a truly binational and bicultural spirit. This spirit of cross-border commerce, traffic, residential life, etc. has enriched the

County greatly. One of the riches of being a border community is precisely our close connection with Mexico and with the world through the border. The County must have policies in place that make people whose families have a long history in this binational community feel at home. The Sanctuary Policy is one of those policies. Our current sanctuary policy affirms that we support our immigrant communities and will not use our resources to aid the federal government's mass deportation agenda. Recent and current immigrants contribute enormous value to San Diego. Passage of this measure will exacerbate the climate of fear and the experience of hostility many Black and Brown San Diegans are already now facing, whatever their actual immigration status. The vast majority of us living here are products of immigration to the US. And we need to remember that for most white people of European ethnic descent our ancestors would not have been allowed to come or stay under current (anti-)immigration policy. Irish immigrants from the Great Irish Famine would have had to go elsewhere. It is hypocritical to treat today's refugees so much worse.

Strongly oppose. Immigrants have been vital to our communities' cultural diversity, economic growth, and innovation. Immigrants have always contributed to advancements in technology, science, and the arts. They bring fresh perspectives and new ideas, which drive creativity and problem-solving.

Economically, they fill essential roles in various industries, stimulate entrepreneurship, and contribute significantly to tax revenues. Immigrants help sustain local economies, their labor supports crucial sectors, and many start businesses that create new local jobs.

Socially, immigrants enrich communities through cultural exchange and active civic engagement. Their presence strengthens our workforce, enhances global connections, and fosters dynamic, resilient communities that thrive on diversity and inclusion.

I am a pastor of the Oceanside Sanctuary. Our congregation strongly supports maintaining our county's sanctuary status. This is not just a political issue; it is a moral and humanitarian one. As Americans, we were taught to honor the words inscribed on the Statue of Liberty: "Give me your tired, your poor, your huddled masses yearning to breathe free." These words embody the values of compassion, inclusion, and opportunity, principles that have long defined our nation. Ending our Super Sanctuary County status would be a direct rejection of these ideals. Sanctuary policies do not promote lawlessness; rather, they foster trust between immigrant communities and local law enforcement, leading to greater public safety for everyone. I pray that Supervisor Desmond and all Board members consider the human impact of this decision. I strongly oppose repealing sanctuary status for San Diego County. Every resident of our county, regardless of status, deserves protection, dignity, compassion and the opportunity to build a life. No matter what we look like, what language we speak or where we were born, we all deserve that chance.

Our community is counting on the San Diego County Board of Supervisors to help make San Diego the beautiful,

safe, and welcoming place it should be. That means safe and welcoming for all, not just a few. One person's opportunity does not have to come at the expense of another's. We all rise when we work together.

We need our Board of Supervisors to show the world that San Diego welcomes all people, that we care for our neighbors, that we will lift each other up, not push each other aside or tear each other down. San Diego should be a sanctuary, a place of refuge and protection. We have a rich, multicultural history. Let's all do our part to work toward an even brighter future together.

I strongly oppose ending our status as a sanctuary county. We are a cross border community and have an obligation to protect the members of our community. These are our neighbors, family, and friends that they are threatening to deport. County resources should in no way be used to accomplish federal objectives. If the federal government wants to enact these policies then they are responsible for doing so themselves and should have no support from us. Let federal resources go towards purely federal aims.

I urge supervisors to repeal the County's L-2 super sanctuary policy that goes well beyond the restrictions/protections provided to undocumented residents under CA SB-54. San Diego County has clearly exceeded its authority by trying to set a local immigration policy that would shelter illegal immigrants who are also violent criminals. Ending the County's super sanctuary policy should be a no brainer for lawful county residents!!!

I oppose repealing our county's sanctuary status. Using local resources for a federal immigration deportation campaign is not what our law enforcement officers are for. We also must maintain our community - immigrants must be able to report crime without fear of repercussion. As a pastor in San Diego, I know the importance of what a sanctuary stands for. It's a place for anyone and everyone to come and find safety, care, and connection. Isn't this what we want our city to also be and be known for? I strongly oppose the repealing of our sanctuary policy. We cannot allow the fear mongering of this administration to cause us to further dehumanize our immigrant neighbors who are such a strong and important part of San Diego. I oppose the repeal of the county's super sanctuary status, board policy L-2. The San Diego border region depends on immigrants economically, culturally, and socially - regardless of their documentation status. Everyone in San Diego knows and loves an immigrant. Most San Diegans likely know and love an undocumented immigrant, even if they don't know about their undocumented status. Our federal immigration system is unjust and inhumane. It's in the best interest of our community to protect undocumented immigrants and plug the gaps in the federal system wherever we can, and that includes upholding a super sanctuary status for our home.

It's time San Diego stood up for itself and all of its residents, citizens or not. These people contribute to our economy in ways we don't fully comprehend yet, and a bunch of angry racists want to turn them away for being the wrong shade of human.

Hello, I am a live in district 5, and I am here to say that I oppose to revealing the sanctuary status of San Diego. The repeal would endanger millions of people who live in the county of San Dieog and our Immigrant community to the cruel and inhumane threat of ICE as it had been a safe haven for immigrant families and the county benefits from their presence as it saw the county grow and have prosperity be developed under this sanctuary law as the immigrant community has made significant contributions to the development of the area and the surrounding prospects of this county. You are making a grave mistake for attempting to repeal the status and recklessly endangering the lives and livelihood of immigrants and their families. These protections ensure community trust, safety, and dignity for all residents. Repealing them would make immigrant communities more vulnerable, discourage crime reporting, and undermine our shared values. I oppose this resolution because it will erode public trust in our police. Repealing L-2 would cause immigrant community members to report crimes less often, out of fear of police acting as immigration agents.

Our community is already grieving the tragic shooting of 16 year-old Konoa Steven Wilson 2 weeks ago at the Santa Fe Depot by a SDPD Officer. This is a moment when the SDPD needs to be building public trust, not undermining it.

U.S. Immigration and Customs Enforcement is the subject of multiple lawsuits – Gonzalez v. ICE, Kidd v. Mayorkas, and ACLU of Southern California Foundation v. ICE – which challenge ICE practices related to detainers, home arrests, and deportation flights. ICE has been accused of illegal actions, including using ruses to

enter homes, detaining U.S. citizens, and separating families.

Immigration enforcement is a federal issue. The SDPD's role must continue to be serving and protecting our local community, not acting as a vehicle for further ICE abuse.

Also trump will never notice you or care about you so stop trying to serve his agenda and focus on what the majority of SD cares about. I strongly oppose repealing Board Policy L2. The United States federal government is actively detaining and deporting non-violent, legal immigrants with proper documentation, and even foreign tourists and U.S. citizens. There is absolutely no regard for due process and protection of the people, both citizens and immigrants alike. Repealing this would do more harm than good as immigrants are a VITAL part of San Diego life, culture, and who we are as a city and county.

If the Sheriff is correctly following SB 54, Board Policy L2 would not have a significant impact on their operations. The need to hold the line to protect and defend our immigrant communities from the threat of illegal detentions is demonstrated by recent events. For example, immigration authorities have recently illegally detained, transported

and held incognito Mahmoud Khalil, a recent graduate student at Columbia University and green-card holder, who is also married to a US citizen. They have done this with the blessing of the president, acting outside of the law.

The illustrates the importance that local authorities stand firmly on the right side of history to defend our communities and to strengthen our democracy.

The United States federal government is actively detaining and deporting non-violent, legal immigrants with proper documentation, and even foreign tourists and U.S. citizens.

In the repatriation drives of the 1930s, over one million U.S. citizens were rounded up and deported to Mexico in a clear violation of their rights and sovereignty as a US citizen. This administration has clearly shown they take a 'shoot first ask questions later' approach to enforcing immigration law, meaning it is the duty and responsibility of private citizens and local and state entities to take reasonable precautions to verify a person's status and eligibility prior to deportation. Requiring a warrant is a check and balance on these illegal deportation of U.S. citizens and legal immigrants.

Jim Desmond continues to dehumanize immigrants and criminalize migration, masking his xenophobic political moves with the promise of public safety. Every day, the Sheriff's office releases individuals with the exact same criminal convictions as those who they transfer to ICE. The only difference is citizenship. If the Sheriff is correctly following SB 54, Board Policy L2 would not have a significant impact on their operations. The main difference is that the Sheriff would no longer be allowed to do transfers and notifications to ICE without a judicial warrant. Immigrant Defenders Law Center (ImmDef) urges the San Diego County Board of Supervisors to vote against item #9 "Ending Super Sanctuary County Status by Repealing Board Policy L-2." Board Policy L-2 ensures that immigrants in the county will continue to trust local law enforcement and local government. Repealing Board Policy L-2 would cause further fear among the immigrant community during this time of mass detention and deportations by the federal government. Anti-sanctuary policies make immigrants and their family members less likely to call the County when they need essential county services and less likely to report crimes to law enforcement. San Diego County should not use its resources to engage in immigration enforcement, which is a federal function. ImmDef urges the Supervisors to protect San Diego communities and stand up for policies that welcome immigrants and build trust.

Repealing Board Policy L-2 will make our communities less safe. Studies show that when local law enforcement cooperates with federal immigration authorities, crime reporting drops. A 2020 study by the Center for American Progress found that sanctuary policies reduce crime by increasing trust in law enforcement. FBI and Cato Institute data confirm that undocumented immigrants are less likely to commit violent crimes than U.S. citizens, and research shows no link between sanctuary policies and increased crime. Weakening trust in law enforcement to support mass deportation efforts will harm public safety and drive people into the shadows. Our status as a Sanctuary City is important both morally and economically. Studies have shown that Latinos will not report crimes to the police if they feel doing so means the police might try to deport them, their families, or their neighbors - thus allowing actual *dangerous* crime to flourish
(<https://www.washingtonpost.com/politics/2021/02/05/when-local-police-cooperate-with-ice-latino-communities-under-report-crime-heres-data/>)(<https://www.kpbs.org/news/midday-edition/2018/04/26/survey-undocumented-immigrants-san-diego-county-le>)

And if the moral issue of victims remaining silent about crime means nothing to you, think on the already high cost of groceries rising when we lose our workers, since over 40% of agricultural workers are unauthorized immigrants (<https://www.ers.usda.gov/data-products/chart-gallery/chart-detail?chartId=63466>). And somehow it is only the workers who will be punished, not the companies who hire them and are profiting from all this crime....

I support our current status and feel no need of repeal. Immigrants should not be treated as though they are all rapists and murderers. They should not be harassed at their place of worship, at their child's school, at their attorney's office, at the offices where they make applications to try to meet requirements...

I was once in law enforcement and victims of abuse, who didn't have citizenship, were threatened with deportation by their partner so he could control them. If you want criminality reported, don't put such stakes down for the victims or witnesses. Most immigrants are doing their best to comply where possible. Many are paying into a social security fund they can never collect from. They were drawn here with the promise of jobs, often by companies who help them secure fraudulent papers. Trump himself employed grounds workers on his golf course for 9 years or more who had fake docs that the HR team winked at. Ask congress to fix it so there IS a line to get into.

I strongly oppose this agenda item. I have lived in San Diego my entire life, and immigrants, no matter their status, are part of what make the San Diego community such a wonderful place. We cannot forget that so many of us have benefitted from the under-paid and under-appreciated labor of immigrants. Something as essential as our food is planted, grown, harvested, and packaged by undocumented immigrants, who do not benefit from many of the services given to citizens. The ability to make a new life for yourself, to not fear your home or your children being taken away from you, to be able to live somewhere safely are rights that should be afforded to every human being on this planet, regardless of something as arbitrary as citizenship status. We do not choose where we are born but we can choose the type of community we want to be. As a lifelong resident of San Diego I strongly oppose this agenda item and the discrimination and fear mongering it promotes.

I strongly oppose for the following reasons:

- 1) Why are we relitigating a policy that was passed just 3 months ago? Are we going to do this for every policy the Board passed? Please stop wasting taxpayer time and money.
- 2) SD County does not pay its law enforcement officers to carry out federal obligations. The 10th amendment forbids the federal government from conscripting local agencies from doing the work of the federal government. If ICE agents have a judicial warrant for someone's arrest, they're more than welcome to arrest them. No one is stopping them.
- 3) U-visas and T-visas are solely for those that are victims of crimes, not witnesses to crimes, and their abuser must be a U.S. citizen or have legal presence. These visas only last for 4 years and are notoriously difficult to obtain.
- 4) This erodes trust between immigrant communities and law enforcement. It makes it MORE likely that serious felonies will occur.

Please keep San Diego safe, and oppose this bill.

I moved to N. County San Diego in 1986. Immigrants have resided and contributed to our work force, economy, and cultural richness long before I arrived here and continue to do so. Most have left their country of origin due to violence there, and to seek a better life for themselves and their families. San Diego would not be the wonderful place it is without them. They may be undocumented, but never illegal. I strongly oppose repealing our super sanctuary county status.

I am in complete opposition to repealing our sanctuary policy. Please don't join in this demonization of our immigrant neighbors that has zero to do with keeping our communities safe and panders to our worst nativist instincts. The undisputed fact is that immigrants are the hardest working, worst paid, least appreciated members of our city, and they commit fewer crimes than native born Americans. With the passage of the Laken-Riley Act people can be deported simply for being accused of a crime without due process. This is both immoral and unconstitutional. Please continue to stand for our immigrant neighbors and keep families together by voting no.

Don't end Super Sanctuary status in our county. The cruelty that ICE has inflicted on the immigrant community goes unmitigated. You can prevent Sheriff Martinez from aiding and abetting ICE's mission. Children are fearful of going to school and being separated from their parents. Adults fear going out to shop. Reminiscent of 1930's Germany, where the Jewish population was rounded up and put in Ghettos, our Sheriff's Office cannot be complicit with slash and burn policies. As a daughter of immigrants who escaped pogroms in Russia, I urge you to protect a population that cares for your children, cleans your house, maintains your yards and labor hard so you can enjoy your lifestyle.

I strongly oppose this measure.

In a time of economic hardship and budget cuts, it is wrong to allocate money to voluntarily helping and collaborating with ICE deportations. Even if it was not morally wrong to participate in the violent break up of families and communities (which is undoubtedly is) money is better used serving our local needs. We do not need to help fund Trump's border agenda.

Do not pass this harmful measure. It goes against the moral of our community and wastes limited resources.

I oppose the repealing of sanctuary measures because they will, as shown in the past, make things more difficult on law enforcement and our communities in general. We want everyone here to feel safe speaking with law enforcement. Our neighbors fearing ICE will not make any or our lives easier or safer. We want every San Diegan, documented or not, to trust our local law enforcement and trust that they can report local crimes without being dragged off for it.

We have seen time and time again how immigration enforcement is used to target the most vulnerable in our community, to separate families, and to racially profile honest people trying to live their lives. Maintaining our sanctuary status is vital in protecting the backbone of our communities. We need to protect our neighbors, not betray their safety. Stating that this motion will help catch violent criminals is just echoing the federal level of fear mongering and harm being perpetuated in our country as a whole right now. This will not make us more safe, only cause more harm. Keep this kind of rhetoric out of San Diego. We keep us safe.

This is once again a distraction. Most of the criminals here are other US citizens like me. And they should go through our own processes here, not be dumped in a country that has nothing to do with their crime. I have never been concerned about nor observed these supposed "violent immigrant" criminals - and I've lived all over SD county. I oppose this and instead feel we should support people with social services the way the county intends, like housing and food assistance, to reduce the reasons and therefore the risk of crime no matter who might commit it. That is a more productive use of my tax dollars than starting a witch hunt that just makes people scared and angry and doesn't fix the actual issues like people not being able to afford their basic needs.

We are a nation of Americans. Those of us in support of this item LOVE our country. Our home. Violent criminals prey on vulnerable people, especially children and women. Convicted violent criminal illegal foreigners are not community members, they are not San Diegans, they are not asylum seekers, they are not newcomers and they are definitely not "new Americans". They are not entitled to remain in this country. Heck, it would be ideal to export convicted violent criminal Americans out of our country. The duty of the Bd of Supervisors is to ensure that everyone residing within the county borders can live in peace, be safe and secure, and contribute productively to society. Fair-minded people will recognize that the immigration status of a person is not a factor that determines criminality. What is at the heart of such claims is prejudice based on nationality, politics, or race. A well-ordered society will leave federal law to be enforced by federal officers; local and state laws to be enforced by local officers. Any blurring of these lines panders to the rhetoric of prejudice, exacerbates mistrust of law enforcement resulting in underreporting of actual crimes, and is a wasteful redirection of local resources - ultimately making for an unsafe and unproductive county for everyone. Do you know a great way to make San Diego less safe? Repealing the sanctuary status of the County. Immigrants who are victims of crimes or are witnesses of crimes will be unwilling to notify law enforcement

because they'll be scared of being deported. It is laughable that Supervisor Desmond determines this to have a positive "equity impact". Stop the fearmongering. Study after study shows that immigrants commit crimes at lower rates than US citizens. Study after study shows that immigrants contribute more in taxes than they take. And common human decency should compel all of us to make sure our neighbors feel safe and at home in San Diego regardless of their immigration status.
