Modify this item. The false narrative of systemic racism in the law enforcement requires we look honestly at data. The sad truth is that certain minorities disproportionately commit more crime. Based upon population they have more police encounters per capita. However, based up the amount of violent crime committed, they are less likely to be killed by a police officer than a white person is by a factor of 50%. The solution is preventing crime, not preventing officers from doing their job.

The current CLERB  
rules prevent true  
transparent and  
accountable oversight  
of the public safety  
group. CLERB doesn't  
have the authority to  
investigate complaints  
against DA  
Investigators (peace  
officers), nor any  
professional staff  
working full time within  
the probation nor  
Sheriff's Dept. Im  
asking the BOS to  
demand complete  
policy updates to  
reflect today's  
community demands  
for transparency and  
accountability.
