**Cc:** Anderson, Joel <Joel.Anderson@sdcounty.ca.gov>  
**Subject:** [External] Ecomment Agenda 34 for SD County 4/26/22

Dear Mr. Potter,

The Ecomment for Agenda 34 would not allow me to submit my comment. The comment is under the 500 count max.

Please attach my comment below to the other comments regarding Agenda 34.

If this potential ordinance is approved it would plunge history back to the Roman Empire where females had no values nor rights. A rat was treated better back then than a female.

Image if you will a little girl with her patties pulled down using the toilet. In walks an older boy. His intend is to obtain sexual gratification at the little girl's expense. She is left traumatized and her virginity violently violated.

Her parents in turn sues the County of San Diego along with the other hundreds of other such incidences that will, not might occur, if the Board so chooses to pass this ordinance. I ask you all, are you ready to tie up County dollars from the numerous lawsuits this ordinance will generate?

Furthermore, are you willing to commit suicide to your political careers if you so choose to pass this ordinance? Mark my word there will be millions who will not allow this act of asinine fatuity on your part to ever be forgotten.

Thank you for your time.

I appreciate your consideration and professionalism with this matter

Sincerely,  
Maryellen Mattson
