Subject: [External] Agenda, February 11, 2026....Support Traffic Signals for Fallbrook
Date: Tuesday, February 10, 2026 4:59:58 PM

Hello,

I moved to Fallbrook 13 years ago from a highly urban central Orange County. My auto insurance rates immediately increased. I thought that's odd, it is rural, less traffic, I wonder why. After driving on Mission Ave for a couple of years I learned why. It's a road that needs help with additional traffic control. I support the installation of traffic signals proposed for two locations on Mission Ave in Fallbrook.

Thank you,

Steven Smith
Fallbrook, Ca.

Why isn't English on the list of language options?

I wanted to give my whole hearted appreciation for a signal at Mission Rd. and Santa Margarita Dr. in Fallbrook. It's a high traffic area.
