Interesting – an update on advancing transparency and accountability in the homelessness response. So what is the attachment? A blank monthly report just for the unincorporated areas. Not too much transparency if you are looking at the entire County. And what kind of encounters? What is OHS? Whom did the safe parking program serve – families or drivers?

And Age should be a number of categories reported separately – seniors 71 and older, seniors 55 to 70, adults 21 to 54, children 3 to 20, babies 0 to 2. Then you probably should break down BIPOC into numbers for each race. And what would we do without proofreaders? It is probably better to say BIPOCs account. And men do not accounts – they account.

Transparency is not achieved with a short and (in my opinion) cursory form. Transparency is best served by attaching a full accounting with meaningful numbers.
