

**COUNTY OF SAN DIEGO  
BOARD OF SUPERVISORS  
TUESDAY, JULY 22, 2025**

**MINUTE ORDER NO. 4**

**SUBJECT: LOCAL EMERGENCY REVIEW: PROCLAMATION OF LOCAL  
EMERGENCY FOR U.S.-MEXICO TRANSBOUNDARY POLLUTION  
ENVIRONMENTAL CRISIS AND RELATED CEQA EXEMPTION  
(DISTRICTS: ALL)**

**OVERVIEW**

On June 27, 2023 (16), the County of San Diego (County) Board of Supervisors (Board), issued a Proclamation of Local Emergency (Proclamation) as a result of the continued conditions for detrimental impacts to the environment, economy, and property within San Diego county, caused by persistent impacts from cross-border sewage pollution and sewage impacted ocean waters. The Proclamation was issued pursuant to the San Diego County Code of Regulatory Ordinances sections 31.101 et seq. and California Government Code section 8630. The Proclamation further asked the Governor to proclaim a State of Emergency in San Diego County. Government Code section 8630(c) requires local governing bodies to review the need for continuing the local emergency at least once every 60 days until the local emergency is terminated.

On July 19, 2023 (4), September 13, 2023 (3), November 8, 2023 (2), December 6, 2023 (2), January 24, 2024 (1), March 13, 2024 (3), May 1, 2024 (4), June 26, 2024 (4), July 17, 2024 (6), September 11, 2024(3), October 22, 2024 (9), December 11, 2024 (1), January 29, 2025 (2), March 12, 2025 (2), May 07, 2025 (2), and June 25, 2025 (4) the Board found that there is a continuing need for the local emergency. This is a request to find that a review of the local emergency has been conducted and that the local emergency will remain in effect.

**RECOMMENDATION(S)**

**CHIEF ADMINISTRATIVE OFFICER**

1. Find that the proclamation of local emergency is not subject to review under the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines sections 15060(c)(2) and (3), 15061(b)(3), and 15378(b)(4)&(5) because the action is an administrative action intended to facilitate state and federal funding, does not commit the County to a specific project, and will not have a reasonably foreseeable direct or indirect effect on the environment.
2. Find that there is a need to continue the local emergency and that the local emergency shall continue subject to review requirements until terminated pursuant to Government Code section 8630(d).

**EQUITY IMPACT STATEMENT**

The communities closest to the San Diego International Border, including the communities of Imperial Beach, San Ysidro, Otay Mesa, and Tijuana River Valley are identified by SB 535 (2012) and CalEnviroScreen 4.0 as being Environmental Justice communities having high pollution burdens for impaired water bodies, elevated PM2.5, elevated linguistic isolation, and poverty rates. By supporting the local emergency proclamation, the County of San Diego remains committed to working with local, state, federal, and Mexican authorities to improve conditions for these communities. Local Environmental Justice communities who have decades of suffering from various pollution sources, have

been advocating and working to raise their concerns to the various agencies, and have engaged to elevate the need for data collection to document environmental injustices.

### **SUSTAINABILITY IMPACT STATEMENT**

This action letter aligns with the County of San Diego's (County) Sustainability Goals: protect health and wellbeing and the environment. The proposed action contributes to the County's Sustainability Goal No. 6 to protect the environment and promote our natural resources, diverse habitats, and cultivate a natural environment for residents, visitors, and future generations to enjoy.

### **FISCAL IMPACT**

There is no fiscal impact associated with this request to continue the emergency. There will be no change in net General Fund costs and no additional staff years.

### **BUSINESS IMPACT STATEMENT**

Increased beach water closures resulting from sewage impacts have a direct effect for the surrounding community due to decreased tourism, patronage of local businesses, and opportunities for youth recreation and camps. By continuing a local emergency, the County of San Diego will be able to engage businesses and non-profit service providers that have been impacted by the restricted access to local beaches and oceans with the goal of assisting in identifying ways to connect them to any state or federal relief programs.

### **ACTION:**

ON MOTION of Supervisor Aguirre, seconded by Supervisor Lawson-Remer, the Board of Supervisors took the following actions:

1. Found that the proclamation of local emergency is not subject to review under the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines sections 15060(c)(2) and (3), 15061(b)(3), and 15378(b)(4)&(5) because the action is an administrative action intended to facilitate state and federal funding, does not commit the County to a specific project, and will not have a reasonably foreseeable direct or indirect effect on the environment.
2. Found that there is a need to continue the local emergency and that the local emergency shall continue subject to review requirements until terminated pursuant to Government Code section 8630(d).
3. Directed the Chief Administrative Officer that when staff next forwards this proclamation to the state, staff includes the following public documents, which the state can also forward to the federal government:
  - a summary of the results of the Assessment of Chemical Exposures (ACE) survey as well as the full report;
  - a summary of the results of the Community Assessment for Public Health Emergency Response (CASPER) survey as well as the full report;
  - the findings of the County of San Diego's 2023 study on the Economic Impacts of Transboundary Pollution;
  - and the following academic publications:
    - Tijuana River Contamination from Urban Runoff and Sewage: A Public Health Crisis at the Border by Granados, Sant, et al.
    - Heavily Polluted Tijuana River Drives Regional Air Quality Crisis by Granados, Prather, et al.

- Health Impacts in Residents Exposed to Tijuana River Pollution A Community-Based Assessment of Environmental and Public Health Risks in the U.S.-Mexico Border Region by Granados et al.
- Low level exposure to hydrogen sulfide: a review of emissions, community exposure, health effects, and exposure guidelines by Batterman et al.

AYES: Aguirre, Anderson, Lawson-Remer, Montgomery Steppe, Desmond
