PUBLIC COMMUNICATION RECEIVED BY THE  
CLERK OF THE BOARD

**From:** [Becky Escalante](#)  
**To:** [FGG, Public Comment](#)  
**Subject:** [External] I oppose the Alpine Sports Complex  
**Date:** Wednesday, December 6, 2023 7:50:17 AM

---

Wright's Field is a rare and irreplaceable California native grassland an endangered habitat with a publicly accessible, uninterrupted wildflower display unlike any other in the county. Every time I visit others are there enjoying the peace and quiet. I have been photographing and documenting the plants and other creatures that live there for a citizen science website on my visits and will continue to do so. Please don't turn these photos and record into a sad memorial.

To replace it with an ill-suited sports complex is an irreversible—and frankly unforgivable—mistake. Current and future residents of Alpine and San Diego County would be robbed of a truly unique place.
