Per this item: “Goal #2, to protect health and well-being of everyone in the region”. So ironic considering the tyrannical abusive destructive mandates plus the unsafe and ineffective injections and treatment pushed on the county residents during the scandemic. This is pure hypocrisy given UCSD reportedly acquired aborted fetal body parts for “research”. How was the health and wellbeing of everyone in the region protected by these actions???

UCSD has alot of good people, but it's sad that the County cannot provide more detail. Knowing that this is a CDC grant from the people who lied and handed out misinformation for years, it covers a lot of sins, I’m sure.
