I am a hydrology-hydraulic regional expert, with PhD in Water Resources, MS in Hydraulic Engineering, Certified Flood Plain Manager, and +35 years of experience as an H & H engineer (over 20 of those specifically in the San Diego Area). I am also a former professor of Hydrology & Hydraulics at SDSU. I support the adoption of the amendment to the Flood Damage Prevention Ordinance. It streamlines the approval process and does not increase flood nor environmental risks. Dr. Luis Parra PhD, PE, CFM.

Please approve the changes to the County's Flood Damage Prevention Ordinance. Department of Public Works has worked extensively with stakeholders and FEMA to bring a balanced amendment forward. The recommended changes to the County's Ordinance are consistent with FEMA Regulations. Having appropriate regulations in place protect property owners and the County while allowing appropriate development in flood prone areas.

Sincerely,
Jeannette Temple
Vice-President of Housing

As a Certified Floodplain Manager and Chair of the Flood Control District Advisory Commission (FCDAC), I would like to submit my support for the adoption of the amendment to the Flood Damage Prevention Ordinance. The

proposed changes were vetted through a very collaborative process are necessary to maintain consistency with the Code of Federal Regulations and the National Flood Insurance Program, as well as help maximize benefits to the flood insurance policy holders in the County.
