Good morning,

Andrew thank you for hosting the meeting , I ran into a man outside a liquor store in east county half dead please. I think that man may have met his fate now. I see homeless veterans everywhere in San Diego but specially in east county. I'm shocked in these past years that the homeless population with likeness, and all focus is on Covid: Nathan build back better? Or great reset..It's not ok they are a plagued population. We need AMY from REOPEN San Diego.

I was originally born and raised in Lakeside, but moved away in 1994. I returned here a few years ago to be a

caregiver for my elderly grandparents and since then I have noticed many positive changes in my hometown. However, I was also struck by the increased homelessness that was present. With this proposal, we have a REAL opportunity to set an example for the rest of the city. Let us be known for our ability to empathize and help those in need, not continue to turn a blind eye to suffering.

I am a Lakeside planning board member, a home owner and Lakeside community member. I am in full support of getting our houseless the housing, care and wrap around services they deserve. Please ensure that a property is located and we can move on this with urgency. Thank you very much.

As a 30+ year resident of Lakeside, I support the allocation of time, resources, and funding to creating a safe housing solution in Lakeside at a sensible location for homeless persons of all ethnic backgrounds to afford the residents access to mental health, medical, and sustenance resources. Having directly worked in the local school district with students encumbered by severe mental and emotional issues, I ask that the coalition place resource referral information within each school site.

I am a business owner in East County and I fully support a homeless facility in Lakeside. Lakeside is leading the charge in finding solutions to assist people going through a difficult time. "There, but for the Grace of God, go I"...We can't turn our backs on them any longer...the time is NOW! I urge you to adopt the revised Comprehensive Homeless Policy (A-128) and the key components included in the revisions.

I urge you to adopt the revised Comprehensive Homeless Policy (A-128) and the key components included in the revisions.

Furthermore, I encourage you to collaborate with all 18 cities and the Regional Task Force on Homelessness to design and implement a coordinated regional action plan that maximizes your combined resources. Homelessness knows no boundaries. All neighborhoods share the same challenges and will benefit from a County-led collective response.

Lakeside business people, residents and homeless advocates have been working with the County to find a real solution to homelessness in our community. We have diligently worked to find a location, garner more public support, and supply input from the homeless and the community at large in order to bring about a facility for Lakeside that WORKS. You will not find any other community in San Diego County that has made as much progress towards supporting solutions than we have. We are ready NOW!

- Adopt the revised Comprehensive Homeless Policy (Item 1)
- Addressing Homelessness Among Older Adults (Item 13)
- Receive an Update on and Approve Actions Related to Compassionate Emergency Solutions and Pathways to Housing for People Experiencing Homelessness (Item 14)

The East County Homeless Task Force, a San Diego Regional East County Chamber Foundation program, would like to express its support for these items.

I worked with the Lakeside homeless for quite awhile. I would ask that focus on an emergency shelter in Lakeside be a priority as part of this A128 proposal. These people are fighting for their own existence. Before they can get ID and support they have to have a safe and healthy place to stay then they can work on ID and support services. We have to meet basic needs of people who are currently going through a difficult time. We can all be there rather quickly. I can't imagine being cold.

Thank you, Supervisors and staff for your intentional focus on this plan. I am writing as an individual who has volunteered full time for homeless solutions in East County since 2016. Please continue to coordinate with the Regional Task Force on Homelessness and all County jurisdictions to implement compassionate, effective and efficient solutions to homelessness. Please continue to move away from the siloed approach and instead use this plan to support a collective impact model.

Hello my name is Shania white I was apart of the homeless community in lakeside as of July of 2020 I got out of the situation and was put into a house. The city of lakeside is in absolute need of a shelter the number of homeless out there need help and a lot of them tend to look for help from their home town.

During the February 2, 2022 clean-up of the Midway camp, did only 7 out of 183 accept services to get them out of the camp? 3.8%?

Cause? Many poor but voluntary choices per individual.

Solution? Repurpose an industrial area into required full time 24/7 attendance in a comprehensive program that processes, evaluates, cleans up, trains, and possible employs and pays on-site. At some point, because they have grown independent and productive, many will rejoin society.
