How is this implemented? Are there "teams" of different agencies and/or departments that will routinely circulate around known encampments as well as search out other encampments on county property? Does the county wait for "red flag" warnings or construction, etc. before clearing out an encampment? What is the process for clearing out an encampment? How will these encampments be decreased or permanently quelled? Etc, Etc...

Why do we need this report if you just passed an ordinance regulating encampments in the Unincorporated County?
