I know seniors who are homeless and are on the verge of being homeless. Their situation would improve so much if they were able to receive something extra each month. It would mean the difference between just surviving and living.

I am in full support of this agenda item. As a Director of a local CBO serving people experiencing homelessness, I can attest to the growing trend of older adults being displaced due to the variance between fair market pricing and the fixed incomes of seniors. This subsidy would prevent adding to our region's homelessness crisis. This pilot program won't meet the needs of all San Diego County residents in this situation, but will provide a data-driven foundation for critical future funding.

The Hospital Association of San Diego & Imperial Counties strongly supports the proposed shallow rental subsidy program aimed to protect our older adults at risk for homelessness. In previous CHNAs and our recent 2022 report, housing instability has been a top health concern for older adults with low or limited incomes. This program will help older adults to secure stable housing by reducing the financial burden from housing costs and improve their overall health and well-being.

Thank you for considering the "Senior Shallow Rent Subsidy." This program is desperately needed. However, the zip code restriction in the proposal eliminates seniors in my community of Mira Mesa from consideration. Priority is given to renters in 39 County Health Equity zip codes. Mira Mesa is not included, so seniors here are effectively eliminated from qualifying for assistance. I SUPPORT this program BUT PLEASE REMOVE the zip code restrictions so that ALL seniors may apply.

Our program supports vulnerable individuals at risk of losing housing each day as they struggle to afford the high cost of living while also managing serious chronic physical and mental health needs. Many of these individuals are hanging on, barely, and the loss of a roof over their head leads to overwhelming an already burdened medical and emergency response system in the county.

This is a much-needed resource for older adults in San Diego who are increasingly finding themselves in need of Homeless Prevention Services. These shallow subsidies will ensure that these citizens remain safely housed and allow the homeless shelter system to serve others.

As a service provider, I see first hand how much our seniors suffer from not having stable housing. When our seniors live on the street, there is a higher chance of elder abuse, theft, decline in health (which increases ER visits), hygiene issues (which increase the spread of viruses), mental-health challenges (which increases PERT/County recourses), etc. The approval of the pilot shallow rental subsidy program will substantially improve the quality of life for many of our struggling seniors.

While trying to help the homeless on the streets I meet a lot of people that are over 65 and have a Social Security check coming, but the pension isn't enough to afford housing and food, even with an EBT card.

There is a huge shortage of rentals and many seniors cannot afford to even rent a room out in a family's home. Those are going for \$1200 plus since the Pandemic.
