2,000 miles of roads in the unincorporated area and only 56 miles of guardrails? Tha leaves a lot of dangerous roads in this hilly area. One is highway 78, between Wynola and Ramona, with its sharp turns and roadway sloped wrong to begin with. So you should not only be maintaining and repairing, but adding new guardrails at least until a more permanent solution can be found,

The main criterion for a guardrail project should be the number of accidents or fatalities. The things mentioned in the Board Letter, while important but not of critical importance. People do not usually sue for traffic volume or speed limit.

By the way, where is Paula-Pauma?
