We are happy to see the County bring forward an ordinance modeled off of the City of San Diego's Due Process and Safety Ordinance.

However, the County's version is missing some important pieces that the City's version had, namely the parts that increase transparency and accountability when the San Diego Police Dept. participates in joint task force operations, and clarify law enforcement's role when responding to immigration enforcement by requiring a report of the incident.

The public has a right to know how our county resources and local law enforcement are used in these situations. By requiring additional reporting on joint task forces and providing an incident report any time local law enforcement responds to immigration enforcement, it provides the clarity, transparency and accountability needed to build community trust and keep all San Diegans safe. We ask the board to add these important pieces from the San Diego City ordinance into the County one.

On behalf of the Center on Policy Initiatives, I urge you to adopt the CLEAR Ordinance. Every person in San Diego deserves to live with dignity, respect, and the basic assurance that leaving their home will not put them at risk of being profiled, targeted, or harmed.

ICE's actions create fear among immigrant and refugee families, disrupt workplaces, and weaken community trust in public institutions. These harms spread through neighborhoods, schools, and businesses, affecting the safety and well-being of the entire region.

The CLEAR Ordinance is a necessary step to ensure that County resources are not used to enable persecution or to separate families. It strengthens transparency, accountability, and the promise that local government will protect the people it serves.

I urge you to vote yes.

As a person of faith and member of First Unitarian Universalist Church, my values include loving my neighbor and welcoming immigrants. As an American, I value the Constitutional principles of due process and fair treatment of all. I also do not want to see my neighborhood torn apart by extreme immigration raids or turned into a police state. For all these reasons, I urge you to adopt Item 20.

I am a nearly 30 year resident of San Diego County and I always vote.

The feds are breaking laws right and left and are supported by a an activist Trump SCOTUS. The State and County are busy enough supporting the public. It is not within the job description for any State or County employee to do any immigration enforcement. Lets codify this better

As a member of the San Diego community, I urge the Board to pass this Ordinance. Every human being deserves to be treated with respect and dignity, and to trust that when they leave their home, they do not have to fear being persecuted or hunted. The treatment of ICE towards immigrants threatens children, families, businesses, and our community as a whole.

ICE & other law enforcement have too much power. The power to do anything, the power to disregard the law, the power to NOT protect, the power to NOT show empathy is an act of terror. Terrorizing humans because 1 man said a particular group of humans are bad is unacceptable. There's a right way to do things and The City of San Diego can ensure that HUMANS are treated fairly no mater what 1 man says. Do things right San Diego. Keep the city safe by adding protections of the HUMANS that live in this "Great" city. Thank you.

My apoyo total todos debemos de ser tratados con respeto .dignidad y humanidad algo que Ice no está haciendo respetando los derechos inmigrantes que solo trabajan para tener una vida digna para su familia nadie merece vivir con miedo no se debe permitir a ICE entrar a los edificios de condados sin una orden judicial.

As a resident of San Diego for over 30 years, I urge the Board to pass this Ordinance. We as residents, community members, and neighbors have increasingly felt unsafe in our city. Anything that helps protect all of our rights is very much wanted.

San Diego Organizing Project and faith leaders in San Diego County URGE the County to PASS the CLEAR Ordinance. Since May, SDOP, the Catholic Diocese and Our Lady of Guadalupe have accompanied over 100 people at the immigrant courthouse. Every day, we see the inhumane treatment of immigrants. Stronger limitations can prevent our families from being separated.

Immigrant Defenders Law Center urges the San Diego County Board of Supervisors to pass the CLEAR Ordinance. There has been an alarming increase in immigration enforcement harming immigrants and separating families. Attacks by immigration agents are terrorizing immigrants with no mercy as to an immigrants age or health. The CLEAR Ordinance would provide protections to vulnerable immigrants, including LGBTQ+ asylum seekers, long-term lawful permanent residents, elderly individuals, and children at risk of separation from their parents. It would also help protect United States Citizen as United States Citizens are being unjustly detained by immigration officials based on the color of their skin. It is important that the County of San Diego pass the ordinance which would require certain conditions in County agreements related to cooperation with law enforcement to strengthen trust between local law enforcement and community members.

Thank you, Board President Terra Lawson-Remer and staff, for introducing this ordinance.

As a small business owner and Advocacy Co-Chair at Business For Good San Diego, I've seen how ICE/federal immigration and law enforcement enforcement actions in our neighborhoods/ business corridors are impacting the health and economic stability of our workers and local businesses. All San Diegans should feel safe to show

up to work, shop locally, connect with neighbors, attend community events, and when accessing county services at county facilities.

I strongly urge the County Board of Supervisors to vote YES on this item, thank you!

Any and every protection we can put in place to protect our immigrant neighbors - of any documentation status - is necessary. Please support this. ICE is kidnapping and detaining citizens and green card holders, too. We must fight back.

**Lidya Duron**

As a community organizer with ACCE I often hear horrible stories from our members sharing how ICE has kidnapped their family members or family friends, with no regard for their right to due process. They have shared the inhumane conditions they are subject to in these detention centers. People have spent months suffering in freezing temperatures, sleeping on a concrete floor with plastic blankets! Most people detained have no criminal record at all! The only thing they are guilty of is migrating here for a better life of opportunity. It's not fair to subject human beings to so much suffering only so that these GREEDY private for-profit detention centers continue to make money off the suffering of our immigrant friends and families. We strongly support passing the CLEAR ordinance because it's the right thing to do. We cannot continue to let ICE enter our county buildings and let them kidnap people without having a judicial warrant for someone's arrest.

As a religious leader in a community heavily affected by the display of public cruelty enacted by the federal immigration enforcement, I urge the county to take measures to protect families from further harm. Families deserve to stay together and everyone has a right to due process. Please vote on this ordinance to support San Diego county residents living in fear and anxiety can know that San Diego county government protects all residents regardless of immigration status.

It is clear that ICE and the Border Patrol (BPS) have far exceeded their legal authority and engaged in overly hostile and violent activity. But this proposed ordinance doesn't do the job.

The exceptions in the ordinance (Sec. 957) make it essentially unenforceable. Federal law enforcement agency personnel or out-of-state law enforcement personnel could simply claim it's an inspection under regulatory authority, just as they've lied so often in the past; and saying "In response to an imminent threat to life or public

safety pursuant to a narrowly tailored policy adopted by the Chief Administrative Officer" without specifying the policy is so vague that it would not stand up in Court.

Similarly, agents at airports should not be excepted generically (Sec. 970.) Some of these ICE arrests are at airports.

But now that ICE and BPS are under extreme fire for their lies and unconstitutional actions, my inclination is to let them self-implode.
