Please save horse trails from the 15 to Oceanside. We need staging areas for our horse trailers. 60% maybe more of the taxpayers in bonsall own horses. The old golf course with its beautiful trees would be perfect as is. Equestrians were excluded on the planning of the park. Please don't make bonsall another Escondido. Our staging area on olive hill which to my knowledge is still owned by sandag funds for it were spent on the skate park in fallbrook. Please Mr. Desmond

We need to ensure that all community needs are addressed in the Bonsall Community Park project. I am formally requesting that our concerns are heard and solutions addressed in context of significance of equestrian parking as a critical access point for trail users in the Bonsall Community Park.

We suggest exploring options for integrating equestrian staging within the BCP plan, while also considering the broader SLRRP framework and additional access points and staging along the 18 mile trail.

The Equestrian community was not included in the final design of the Bonsall Community Park. Equestrians are a big reason why multi use trails was #1 on the survey, but we were not considered at all in the park design. Soccer players and other users didn't have to ask specifically for parking. So wouldn't you also assume that equestrians wouldn't have to either?

Please do not move forward on the Bonsall Community Park project until a solution for equestrian parking is included in the park plan. Although there are other staging areas proposed in the larger SLRRP plan, the BCP section is an important, half-way access point to a trail that equestrians have helped maintain for decades. Please help us find a solution to include everything the community wants, including equestrian staging.

Please put a hold on awarding bids for construction on Bonsall Community Park the bid will close Nov. 4. The Equestrians have been discriminated against in the plan & public outreach for the BPC. BCP provides parking for all user groups except Equestrians. Parking is essential to trail access. Put BCP on hold until a solution can be found, we are asking for your help. We emailed, we met with DPR, we need your help or we will be excluded from the trails we rode and maintained for decades.
