Strongly oppose masking children under 12 in schools. The CDC states on their website that the flu presents a greater risk for the health of children than Covid does. Scores of research studies globally have backed this. There is no science whatsoever that suggests that young children should be wearing masks if adults have access to the vaccine, which we DO. Masking prevents the natural process of learning to recognize emotional cues for children, which is the basis for learning empathy.

Please unmask our kids and adolescents. There are multiple sources showing evidence that children have a very low risk and they aren't super spreaders as was once thought, back in spring of last year. We need our kids to breathe fresh air, to see other's expressions, to hear their peers and teachers, and to move forward towards normalcy unafraid! Masking faces (with products that clearly state they don't even "protect" against Covid), is negatively affecting our children's mental health as well.

Lift the mask mandate  
immediately. We were a

have the right to make our  
own choices. If you  
don't agree you are part

Our family strongly opposes any mask mandates for children including public spaces, summer camps, and K-12 school settings. It has been proven that children are at a lower risk from Covid than they are during a normal flu season. Now that every adult has had the opportunity to become vaccinated, our children are protected from those around them. Child to child transmission is also very low ( $R_0 < 1$  for pre-adolescent children). Please make masks optional! We want to see children smiling again.

For our children's  
social/emotional well-being  
with existing preventive  
measures taken by schools  
I.e. (social distancing, air  
filtration systems, and desk  
shields), the need for  
wearing a mask is  
significantly reduced and  
our children need to  
breathe. The mask is an  
additional barrier that is  
impacting our children's

students impacted with  
various disabilities. Mask

It is unconscionable that

current mask mandate  
when given clear  
opportunity to do so. It is  
especially important for our

with no restrictions (except  
maybe for a mask mandate  
for now)? By now, both the  
very limited hours, closing  
for "deep cleaning" mid-day  
and having plexiglass  
everywhere is not based on  
science. COVID-19 is not  
droplet based, hence deep  
cleaning does not make  
sense and plexiglass is  
downright  
counterproductive as it  
interferes with air  
circulation. We need our  
libraries fully open!

End the tyrannical mask  
mandates for all of the  
county including in our  
children's schools all 3 of  
my kids suffer from  
migraines and nausea it  
needs to be a choice let  
them breath!!! Its not  
healthy to wear a face  
diaper all day . Wake up the  
orders don't make sense .  
And the hypocrisy we see  
and hear about is a joke .  
Do as I say not as I do ... my  
kids use to love going to  
school now everyday the  
dread it and are having  
issues mentally. This is

Kids should not be wearing  
masks while in school. The  
amount of social and  
psychological harm we are  
inflicting by continuing to  
force masks onto the least  
susceptible population is  
sickening. Limited  
communication & social  
development, lack of focus,  
increased anxiety, fear of  
others, and bullying are just  
some of the negative side  
effects we are seeing  
already. Parent should have  
the right to say what is best  
for their own children!

UNMASK our children.  
Theyre NOT Covid  
spreaders & need to  
breathe freely. We are the  
USA, land of the free. Free  
to CHOOSE & myself/my  
husband alone should be  
choosing what is best for

mask your kid I dont care,  
but I should have the  
choice to not mask mine.  
Public education is their  
RIGHT & I SHOULDNT have  
to pay for them to go  
elsewhere because youre  
making them wear a mask.  
Let our kids be kids & build  
their immune systems the  
old fashion way. No more  
masks in school!

I'm Kandice, a member of

end the state of emergency  
in San Diego and remove all  
mask mandates. We must  
stop masking our children.  
They are not significant  
vectors for covid and there  
are no long term studies on  
excessive mask wearing in  
children. Our children are  
suffering. They need to see  
faces, expressions, and not  
grow up fearing the air they  
breathe. Please remove  
mask mandates, especially  
for children. Those who  
want the vaccine can get it  
making masks unnecessary.

I would like to ask our  
board to remove any mask  
mandates for kids for  
camps, school, etc. These  
children have been through  
enough. The older kids now  
have the means to get a  
shot and statistically, the  
younger kids do not  
contract, nor spread the  
virus-like adults. Please  
stand up for our kids. It  
needs to start with our  
leadership otherwise we  
will never get them back to  
having a normal school  
experience. Help stop  
treating our kids like they  
are the virus. Thank you
