This very needed. Looking forward to all 4 Supervisors moving this forward (particularly in light of Lawson-Remer's stated advocacy for more transparency).

I support this proposal. The public needs more time to properly review and research agenda items of importance to them and allow time to make informed decisions. More time between the final Agenda and meeting also allow people to make arrangements with their employer for time off if they wish to attend in person.

This is a great idea! This allows for us to be more informed and engaged.

Expanding access by the public and transparency by the board improves public awareness and promotes civic involvement. The public has every right to be alerted to the county's actions using taxpayer dollars for the so-called best interest and health of every resident. This currently is not happening. Especially over the past 5 years when this board's actions have been detrimental to the residents as other interests, agendas, ideology and people are prioritized. Also non-agenda speakers should all be heard at the beginning of the meeting.

Thank you for proposing this. I strongly support this and believe it would facilitate democratic participation in our county.

This is a great idea, Joel! Of course, it is nice to be here in-person, but if the call-in option can be made permanent, or a Zoom option introduced, that would be great!

One of the best outcomes I can see is that it provides more opportunity for a back-and-forth which might result in modifying agenda items well before the meeting to avoid unnecessary incivility in chambers. And it would certainly give more time for people who work or have other duties to look at, research, and/or discuss the agenda item before 'flying off the handle' in public.
