Dear Committee,

The Department of Parks and Recreation is a cornerstone of community well-being in San Diego County. Our parks, trails, and community centers are not just amenities - they are essential public resources that promote health, safety, and quality of life for all residents. DPR provides clean, safe, and well-maintained spaces where families gather, children play, and individuals of all ages engage in recreation, education, and cultural enrichment.

Cutting DPR's budget would jeopardize critical services, including trail maintenance, community programming, and facility operations, which directly impact public health, environmental stewardship, and social equity. They also serve as hubs for community engagement and emergency response during disasters.

I urge the Board to ensure that DPR's budget remains intact and that park operations are fully funded. Investing in parks is investing in the future of San Diego County.

Thank you kindly
