As a home owner in the Dictionary Hill area I enthusiastically support our SD County Park & Recreation purchasing these (and any subsequently available parcels) land lots to add to our Dictionary Hill Open Space Preserve. This preserve is an important wildlife corridor contributing to our area's biodiversity. It also affords recreational activities for human residents. Enlarging the preserve's boundaries at this time is both biologically beneficial and financially wise.

Firmly support expanding the "Jewel of Spring Valley"! Open spaces are dearly needed for all of us to provide peace and serenity. Flora, fauna ... young & old will benefit. Thank you.

Preservation more important than building dense pack and stack overpriced boxes called "affordable housing".

Please purchase the additional two parcels (both tax delinquent) to add to the Dictionary Hill Open Space Preserve. These additions will help to protect species listed as Threatened or Endangered by the State or Federal government.

Please purchase the land to add to SD county parks and rec open space. The area is home to endangered plants, birds, etc. and it's very important to save wilderness that's contiguous with existing parks. Habitat for wildlife is very important.

It is exciting that a new area of land can be added to Dictionary Hill open space. This is a treasure to the whole county. Please support the move

Again, San Diego has a 5.2% jobless rate, which is alarming in this age of high infation and fiscal uncertainty. We need to be developing job opportunities for the homeless and disadvantaged. Yet this proposal says The San Diego River Park Foundation will use the vacant land for wildlife conservation and public recreation; no development will be done.

Again, I oppose this land purchase just for wildlife and recreation. We must do better.

I support both parcels going to the Dictionary Hill Open Space Preserve. Our community benefits more from native flora and fauna rather than additional houses.

Please buy this delinquent property to extend the Dictionary Hill preserve. There are a number of sensitive or threatened species on the hill that need this protection. Thank you, Karen Gless, Past President of Dictionary Hill Open Space Preserve
