Wouldn't the CAO just work to grow her government's monopoly?

i am in support. It makes sense to periodically review the functioning of any complex organization such as the County. I am sure that taking this on as a time limited project will lead to many learnings.

I think this is a GREAT idea and FULLY support this agenda item. Every organization, business or government, should go through this exercise regularly to insure that they are serving their customers, and we are the customers here, in the most efficient and effective manner AND that you have the resources to do so. To not do this breeds mediocrity and ineffectiveness to the point of waste or in the business world potentially bankruptcy. I applaud you for being bold enough to take this on!

Too many actions taken by this board to force an agenda onto the people without one vote. The BOS needs to stick to their motto and serve the people - not the agenda.

It is important for every organization to periodically review its functionality, efficiency and goals. This includes identifying areas where resources are being used inefficiently or being wasted. So many aspects of an organization are impacted by its operational, financial and administrative health. And the morale of employees, and degree of customer service and satisfaction, are greatly impacted by the health of the organization. I fully support this effort.

It is very important that all basic County Core functions are complete and addressed before new projects are attempted.

It is necessary for government concentrate on the important policy items. There is not enough time or money to divide the resources to do everything. I am in support of streamlining the efforts that the Board of Supervisors. Additional staff and departments that are difficult to define the responsibilities and work will lead to wasted time, resources and monies. I am in support of this action.

I fully support this commonsense approach to see which county functions are working and which are not. The SD County BOS keeps adding new departments and regulations, some which are duplicative of state and federal regulations. It is time to review all and be sure the core functions are being delivered upon. If they are not due to limited resources or personnel, then those activities not part of the core functions of the county need to be reduced or eliminated. Please support this.

Yes-when will you hire a full-time civics teacher to teach you your responsibilities. Passing the buck to customer service is not fair. Nor, by the way, is burdening staff with researching all your half-baked last minute proposals.
