I support the CSG stance on opposing this agenda item. The County BOS were clear that cannabis legislation was to be social equity led, which meant a "special" tax designed to repair the harms caused by the War on Cannabis. If this tax is to be a "general tax", to ensure it is still social equity focused this ordinance must require the creation of a cannabis advisory body made of social equity community members. The purpose of this body would be to advise on how to allocate cannabis tax revenue.

Item 22 states that it is primarily in support of Cannabis Equity introduced by Nathan Flether, presented voters of

San Diego County as just that " A Cannabis Equity Initiative"

I would ask that a committee of bona fide San Diego County citizens be assembled from local established and know "Equity Activist and Experts " to monitor the use of taxes collected. To assure that the majority of the funds are used in areas that were affected by the war on drugs, and lower income neighborhoods.

Thank You

The County BOS were clear that cannabis legislation was to be social equity led. The CSG is disappointed in the BOS's inability to support an equity focused "special" tax. To ensure the "general" cannabis tax revenue is SE focused, create a cannabis advisory body made up of social equity community to advise on allocation of cannabis tax revenue. Lastly, we are concerned the language doesn't inform consumers that the tax can be passed onto consumers through the increase in product price.

Fletcher and Vargas proposed this as an equity measure for harm done by the War on Drugs to unincorporated areas, however the statement BL states this is a general tax that does not even keep the monies in the incorporated areas. This is dishonest and ignores the public feedback. The board COULD appropriate funds to remedy inequity at a later time. VOTE NO on this grab for more taxes that will only hurt unincorporated peoples more.

Absolutely not. Seeing minor children in hospital being drugged and trafficked for sex slave business.
