Hi Supervisors,

Appointments of people serving the public should be a public process. This item should not be buried in the Consent Calendar, especially if you want to "ensure that all have an equal opportunity to observe and participate in the proceedings," as the Chair is supposed to do.

Waiving policy A-74 would seem to allow political hacks as opposed to plain citizens to be on the committee and direct the conversation and action. We want all suggestions, real solutions to problems which never seem to go away, not pre-judging which ones which will pass muster with a select few. We should not allow this, and I do not consent.

Regards,

Paul Henkin
