MSCP CONSISTENCY REVIEW AGREEMENT FOR MAR VISTA ISLAND ANNEXATION

This Multiple Species Conservation Program (MSCP) Consistency Review Agreement for the Mar Vista Island Annexation (Agreement) is made and entered into as of the 31st day of May, 2023, by and among the City of Vista, a chartered municipal corporation (City); the County of San Diego, a political subdivision of the State of California (County); the United States Fish and Wildlife Service, an agency of the U. S. Department of the Interior (USFWS); and the California Department of Fish and Wildlife, a subdivision of the California Resources Agency of the State of California (CDFW), herein collectively referred to as the Parties. The Agreement defines the Parties' responsibilities and obligations and provides a common understanding of actions that will be undertaken for the conservation of the proposed Covered Species in the Draft North County Multiple Species Conservation Plan (NC MSCP), as defined herein, and their habitats in the review of the Mar Vista Island annexation application involving unincorporated lands located within the Draft NC MSCP.

RECITALS

WHEREAS, the City has applied to the San Diego Local Agency Formation Commission (LAFCO) to annex an unincorporated island consisting of 109 parcels totaling approximately 143 acres (Property), which is located within the City's Sphere of Influence, from the unincorporated County into the City to create a more logical City boundary. The proposed unincorporated parcels are zoned A-70 (Agriculture) with a General Plan Designation of SR-1 (Semi-Rural Residential, 1 unit per 1, 2, or 4 gross acres); and

WHEREAS, the Property, as depicted in Exhibit A, is within the geographic area proposed to be addressed in the County's Draft NC MSCP, and the County, USFWS and CDFW entered into a *Planning Agreement Regarding the North and East County Multiple Species Conservation Program Plans, Natural Community Conservation Program Plans and Habitat Conservation Plans*, as revised and amended March 2021 (Planning Agreement); and

WHEREAS, Section 6.8.3 of the Planning Agreement addresses the annexation of lands and requires any annexing jurisdiction to enter into an MSCP consistency review agreement with the County, USFWS, and CDFW. The purpose of an MSCP consistency review agreement is to ensure that the proposed annexation will not jeopardize the Draft NC MSCP; and

WHEREAS, approval by LAFCO of the annexation of the Property into the City is conditioned upon the execution of a MSCP consistency review agreement, such as this Agreement, between the Parties; and

WHEREAS, this Agreement describes the City's obligation to ensure that any development of annexed lands proceeds in accordance with the Preliminary Conservation Goals set out in Section 5 of the Planning Agreement, as further set forth in this Agreement; and

WHEREAS, the City shall record this Agreement in the County recorder's office, and this Agreement shall run with the land; and

WHEREAS, the County has continued development of the Draft NC MSCP with USFWS and CDFW as a joint Habitat Conservation Plan/Natural Community Conservation Plan.

NOW, THEREFORE, the Parties enter into this Agreement on the terms and subject to the conditions as set forth herein.

A. To ensure the annexation meets the criteria in section 6.8.3 of the Planning Agreement, including that the annexation will not jeopardize the buildout of the preserve or the coverage of species or compromise viable habitat linkages within the Draft NC MSCP Planning Area and that any development of the annexed lands is consistent with the Preliminary Conservation Goals outlined in section 5 of the Planning Agreement.

B. To ensure that the Mar Vista Island Annexation Application is properly evaluated and mitigated consistent with the Draft NC MSCP, and any resulting responsibilities for ongoing maintenance and enforcement of the terms of the resulting biological mitigation are followed consistent with the Planning Agreement.

SECTION 3. REPRESENTATIONS AND WARRANTIES

A. COUNTY.

1. County agrees that the annexation of the Property in accordance with this Agreement satisfies the requirements of section 6.8.3 of the Planning Agreement and that it specifically will not jeopardize the buildout of the Draft North County Multiple Species Conservation Program Plan Preserve Area or coverage of species within the Planning Area, that it will not compromise viable habitat linkages within the proposed Preserve Area, and that any development of the annexed lands will proceed in accordance with the Preliminary Conservation Goals set out in section 5 of the Planning Agreement.

B. CITY.

1. City agrees that any development of the annexed Property shall proceed in accordance with the Preliminary Conservation Goals set out in section 5 of the Planning Agreement, and City shall be responsible for the ongoing maintenance and enforcement of the terms of the Planning Agreement as they relate to the annexed land.

C. CDFW

1. CDFW agrees that the annexation of the Property in accordance with this Agreement satisfies the requirements of section 6.8.3 of the Planning Agreement and that it specifically will not jeopardize the buildout of the Draft North County Multiple Species Conservation Program Plan Preserve Area or coverage of species within the Planning Area, that it will not compromise viable habitat linkages within the proposed Preserve Area, and that any development of the annexed lands will

proceed in accordance with the Preliminary Conservation Goals set out in section 5 of the Planning Agreement.

D. USFWS

1. USFWS agrees that the annexation of the Property in accordance with this Agreement satisfies the requirements of section 6.8.3 of the Planning Agreement and that it specifically will not jeopardize the buildout of the Draft North County Multiple Species Conservation Program Plan Preserve Area or coverage of species within the Planning Area, that it will not compromise viable habitat linkages within the proposed Preserve Area, and that any development of the annexed lands will proceed in accordance with the Preliminary Conservation Goals set out in section 5 of the Planning Agreement.

SECTION 4. MAR VISTA ISLAND ANNEXATION

A. The proposed Mar Vista Island Annexation satisfies the requirements of section 6.8.3 because it will not jeopardize the buildout of the Draft NC MSCP Preserve Area or coverage of species within the Planning Area, and it will not compromise viable habitat linkages within the proposed Preserve Area for the following reasons:

1. The Mar Vista Island Annexation project area consists of 109 privately owned parcels and public right-of-way comprising public streets and associated public facilities. The project area is zoned for single-family residential use on one-acre parcels with private parcels ranging in size from approximately 0.5 acre to 3.9 acres. The project area is developed with a combination of single-family homes, agricultural uses and accessory structures (please refer to aerial photograph of project area included as Exhibit A). The project area does not include any contiguous areas of native vegetation or undisturbed areas that could qualify as conservation lands.

2. The proposed Preserve included in the Draft NC MSCP does not include any property located within the Mar Vista Island Annexation project area and the Mar Vista Island project area is not located adjacent to or connected to the Preserve.

3. No development is proposed as part of the Mar Vista Island Annexation. The subject application is purely for the purpose of a jurisdictional change and does not contemplate any land disturbance activities that would result in biological impacts.

B. The Mar Vista Island Annexation is consistent with the Preliminary Conservation Goals outlined in Section 5 of the Planning Agreement for the following reasons:

1. The Project proposes a jurisdictional boundary change and does not include any proposal to grade, develop or otherwise disturb the land within the project area. The Project area is developed with a combination of single-family homes, agricultural uses and accessory structures. No protected or listed species of concern, native habitats, or sensitive ecosystems have been identified within the Mar Vista Island Annexation project area.

2. The Project proposes no development and therefore, would not impact any threatened, endangered, or other special status plant or animal species.

3. The Project would not increase the need to list additional plant or animal species as no listed species are located within the project area and no development or disturbance is proposed.

4. The Project would not impact the ability to identify and designate biologically sensitive habitat areas because the project area is fully developed (refer to Exhibit A) and does not include biologically sensitive habitat areas.

5. The Project would not impact the ability to preserve habitat and contribute to the recovery of Covered Species because the project area does not include biologically sensitive habitat areas and no Covered Species are known to exist in the project area.

6. The Project would not require the establishment of specific goals and objectives for habitat connectivity, management and monitoring, or funding to address habitat conservation within the project area since the entirety of the Mar Vista Island Annexation area is developed and/or disturbed.

SECTION 5. RECORDATION

Upon its effective date, the City shall cause this Agreement to be recorded with the San Diego County Recorder's Office.
