Submitted At: 11:34am 08-31-21

I oppose this agenda item. These communities are being built in already densely populated areas.

Liila Harris

Location: 92064, Poway

This is not the solution. We need more long term solutions to help people work and make their own living and less handouts.

Stefanie Benvenuto

Location: 92111
Submitted At: 10:22am 08-31-21

I'm a strong supporter of this project, and a neighbor of the community it's being built in. I think the addition of affordable homes in an area that has readily available commercial and retail supports makes sense, particularly when we consider the options for transit as well. San Diego's affordable housing crisis demands that we take the necessary steps to add housing stock at accessible price points. Please support.

Rodrigo Carrasco

Location: 92101, San Diego

I support the Mt. Etna project as it is a transit-oriented development at a busy intersection in the MTS bus network. With the upcoming opening of the UC San Diego Blue Line Trolley extension in November 2021, multi-family developments such as Mt. Etna will become increasingly important to provide the residential density to support mass transit.

Bike Clairemont

Location: 92117, San Diego

Bike Clairemont is an alternative transportation program under Clairemont Town Council Foundation created to advocate for mobility solutions and alternative transportation infrastructure in Clairemont and surrounding communities, and we are pleased to be in support of the Chelsea Investment Corporation Mt. Etna Affordable Housing Project. We urge your support to move this project forward through another major milestone to bring much needed housing and transportation improvements to Clairemont
