I support alternative energy sources. SDGE has been recalcitrant and backwards. It collects too much of our citizens money to be so unresponsive.

My name is Marie Chen, with SanDiego350.

It's essential the County join a CCE to provide greater access to cost-competitive, clean, renewable energy. SDCP has the resources to help the County achieve 100% clean energy by 2035. Because SDCP easily satisfies the Revised Guiding Principles, the County will also prioritize equity and justice, jobs pipelines for CoC, and increase the numbers of good-paying, union careers in the clean energy economy.

We strongly urge you to vote to join SDCP.

JUDITH SILVERMAN

Location: 92082, VALLEY CENTER
Submitted At: 11:53am 08-31-21

My name is Judith Silverman and I live in Valley Center. I urge the County to join San Diego Community Power. It appears that SDCP meets and exceeds the County's guiding principles and is ready to partner with unincorporated communities to build an equitable and sustainable future for unincorporated communities.

Hi, my name is Gina Woodard and I'm a resident of Chula Vista. I urge you to vote YES on joining San Diego Community Power. We need regional unity and leadership to solve the climate crisis and bring everyone into a 100% clean energy future together by 2035 or sooner. If our County joins SDCP now, it will have a say in how projects focused on equity will be created and carried out to meet the needs of all our communities. I urge you to please join SDCP today. Thank you.

I'm a Family Physician taking care of many residents and families around the county. Please allow for families to opt in towards renewable energy! They want to invest in their children and grandchildren's future and we are running out of time! I support 100% clean energy to bring Public HEALTH to all patients starting with what we breathe in our homes.

DAVID HARRIS

Submitted At: 9:02am 08-31-21

I am a member of the Community Advisory Committee for SD Community Power, representing the City of La Mesa. I urge the County to join SD Community Power. This is the single most important decision the County will make to increase the availability of renewable energy to County residents and businesses, and drastically reduce GHG emissions from the electric grid. We need regional unity, equity for communities of concern, and a just transition for workers to achieve a 100% clean energy future.

I am a practicing emergency medicine physician and director of disaster preparedness at Kaiser in San Diego. I see each year the increased threats from wildfires, utilities failures, air pollution, extreme heat events and other disasters related to the climate crisis. The climate crisis is a public health crisis. The County would take a tremendous step with a YES vote to join San Diego Community Power. I thank you for your leadership in this impactful vote.

Sincerely,
David Neison

Dear SD Supervisors, I am writing as a Chula Vista resident and urge you to join San Diego Community Power. SDCP's goal of 100% Renewable Electricity by 2035 is stated in its JPA agreement. By joining SDCP, the County can bring choice between either 50% or 100% renewable electricity and the benefits of affordable clean energy to residents in unincorporated areas. Your leadership makes a crucial difference in helping all of us to cut GHG emissions as much and as quickly as possible. Thank you.

Joining or creating a CCA will only raise consumers' electricity bills. A CCA is a backdoor method of forcing consumers to use renewable energy, which is both unreliable and more expensive than conventional or nuclear sources. My electricity rates have already increased 37% over the last 5 years, primarily due to CA's renewable energy requirements.

Speaking on behalf of Sierra Club San Diego, we are pleased to support the County's move forward in selecting a new CCA partner. We support the selection of either the CEA or SDCP, as the staff report makes it clear that both are acceptable choices. We ask that you prioritize the need to finalize a decision now, so that the County can swiftly file the necessary paperwork, and serve customers more quickly. CCE is critical to addressing Climate Crisis. -Karl Aldinger, Conservation Organizer

On behalf of UNITE HERE Local 30, I urge the County to choose joining San Diego Community Power or SDCP as the community choice energy program for the county. SDCP has demonstrated its capacity by actively developing new clean energy projects and by signing new power purchase agreements. By joining SDCP, the County better positions itself to be able to achieve goals related our regional sustainability plan, invest in our local economy, and create pipelines of good middle-class jobs.

San Diego Community Power is one of the bright spots of San Diego's response to the advancing climate emergency. Under its JPA, participating jurisdictions are on their way to transitioning to 100% clean energy, through a structure prioritizing community welfare, equity, and good jobs. Providing access to SDCP to County residents in unincorporated areas would be a huge benefit to those residents, SDCP generally, and an important step to meeting our vital climate goals. Please vote yes.
