I oppose this tax hike! Terra Remer-Lawson is my supervisor. She does not represent me or our district. This is taxation without representation. NO to the tax increase. When you can show that the stewardship of the current property taxes has been used effectively and need for more is "the noblest motive" for "for the public" THEN you should approach for the consent of the governed.

No taxation without representation (to quote an old line) which is what the proposed tax hikes amount to if they are not supported by the Constitution or Laws (like all that unnecessary AND ILLEGAL COVID stuff.)

I am trying to figure this out if this is just approving what has already been voted on or are these tax increases? If they are tax increases then I strongly oppose. If these have already been voted on and it's just procedure to approve then I am neutral.

I feel that it should be clearly stated so that new people trying to understand what is happening in government is transparent and clear.
